SALON BROCHURE

SKIN CONSULTATIONS

An individual treatment plan tailored for you

To make sure our treatments address your individual skin concerns and need, all clients will be invited to attend a private detailed consultation with one of our skin specialists.

During the consultation, your skin specialist will:

- Discuss your individual concerns and expectations
- We will advise you on treatment options available to address your concerns
- Advise you on expected results from each treatment / skincare programme
- Tailor a treatment programme for your individual budget

Skin Analysis System

Our Skin Analysis System is the most modern equipment in the industry for analysing facial skin, as well as for capturing, displaying and comparing results. The device uses the technology of spectral imaging in combination with artificial intelligence and image analysis.

This system can detect a total of twelve skin problems of the dermis and epidermis such as age spots, pores, moisture, texture and wrinkles. The Zemits Skin Analysis System can recommend products for an individual skin care regimen based on products that we supply in our salon. It even predicts skin conditions within the next three to five years.

Please note: consultations are free.

However, should you wish to avail of our **Skin Analysis System** the consultation will require a deposit of €50. If you decide to go ahead with your recommended treatment plan, this deposit is redeemable or can be used to secure all future appointments.

SQT BIO MICRONEEDLING

A brand new revolution in aesthetic dermatology.

Sponge spicules are a kind of siliceous bio-microneedle that are extracted from the freshwater sponge. They can stimulate the dermis of the skin and start skin surface microcirculation. They effectively deliver active ingredients to the dermis layer of the skin while activating the basal skin cells.

The microneedles can be seen as powder to the naked eye and as a sharp rod crystal under the microscope. In just five minutes, between three and five million natural siliceous microneedles are directly introduced into the dermis layer through hand massage. No bleeding, no anaesthetic, and no skin breakage.

SQT Bio Microneedling shortens the skin cycle from 28 days to 7 days, and achieves natural, safe, and effective physical rejuvenation.

SQT Bio Microneedling can be used for treatment of:

- Pigmentation and Melasma
- Sun damage
- Oily skin
- Large pores
- Skin redness textural issues
- Acne Scarring
- Active Acne and Congestion
- Fine lines and Wrinkles
- Uneven skin tone and appearance
- Sunspots
- Lifting, firming and collagen stimulation

PRICES

SQT Revitalise <i>Pigmentation, fine lines wrinkles, sun damage</i>	€200
SQT Resurface <i>Acne, scarring, stretch marks</i>	€200
SQT Nourish & Hydrate <i>The non-injectable skin booster</i>	€200
SQT Anti-Ageing <i>Smooths wrinkles, firms skin and improves skin elasticity</i>	€250

HIFU, HIGH INTENSITY FOCUSED ULTRASOUND

HIFU (High Intensity Focused Ultrasound) has a long and impressive history of efficiency within the medical industry, and now the same technology is being applied to advanced facelift and body sculpting treatments.

Though there are many non-surgical facelift treatments which can effectively target the top layers of the skin (the superficial dermis), HIFU is unique in its ability to target focus points at multiple depths beneath the surface, including the dermis, right down the SMAS (Superficial Muscular Aponeurotic System), which is the layer adjusted by surgeons during a traditional facelift.

High Intensity Focused Ultrasound (HIFU), also known as 'Ultrasound Facelift' or '3D SkinMed' or 'HIFU Body' is firmly becoming one of the most sought-after lifting treatments face, neck and body sculpting treatments in Ireland. Unlike surgery, a HIFU facelift is much safer and more affordable which is why it is becoming increasingly popular.

Also, unlike some treatment options whereby a course of multiple treatments is generally required, HIFU is a one-off therapy which will result in firmer, tighter, lifted facial skin or a sculpted body.

- Refines lines and wrinkles
- Reduces Wrinkles
- Tones skin and reduces the size of pores
- Reduces the appearance of Acne scarring
- Reduces the appearance of stretch marks
- Stimulates the body's natural healing process
- Non-surgical face-lifting
- No post treatment downtime
- No damage to the surface of the skin

The stimulating effect of HIFU promotes the synthesis of new collagen which will help your skin maintain its natural, youthful glow.

Unlike some non-invasive treatments which require a course of treatments over several months, HIFU generally only requires a single treatment. Results however vary from person to person. Occasionally a follow-up treatment may be required depending on your responsiveness to the procedure.

The most noticeable results should be seen within the first eight weeks following the treatment. Further improvements may be gained for up to six-months and results can last up to two years.

Effects of HIFU treatment:

- Tightens skin on the décolleté, neck, mouth, eyes, and forehead
- Reduces wrinkles, bags, under-eye troughs, and dark circles
- Lifts the skin and makes it more elastic
- Tightens and lifts the cheeks without surgery
- Improves the shape of the face contour
- Improves the appearance of the jaw line
- Reduces the appearance of acne
- Improves your body so you can look anywhere between 4 to 8 years younger
- Increases blood circulation
- Increases the natural production of collagen in the skin
- Re-educates the muscles
- Stimulates skin cells
- Rejuvenates the skin
- Tightens, firms, and improves muscles
- Reduces the appearance of double chins
- Removing stubborn body fat
- Skin toning and tightening

CONSULTATION

In addition to your treatment, all procedures include free of charge consultation, a skin analysis, a patch test that should be conducted 24/48 hours before and a post-treatment review.

During this HIFU consultation, your requirements will be assessed, the area that you need treated will be checked as to whether it's free of contraindications and understanding of the HIFU results and your expectations will be fully discussed and understood. This way, the perfect solution, bespoke to your own specific requirements will be found, customised and made ready for you.

Hips	€600

CRYSTALFRAX PRO

The Fractional RF is successfully used to treat ageing skin. This skin condition is characterised by decreasing skin elasticity and, as a result, the thinning of the epidermal and dermal skin layers; these skin changes result in fine lines, wrinkles, tone and skin texture issues.

RF uses gentle electrical current that helps to increase skin tone and elasticity by temporary increasing local blood circulation, thus helping to improve skin cells metabolism and further production of new collagen.

Unlike traditional microneedling RF treatments that use needles to deliver the RF energy into the skin, no-needle fractional RF uses a specialised handpiece that emits the RF energy through a series of nano-electrodes that do not penetrate the skin.

The nano-electrodes create tiny channels in the skin, allowing the RF energy to penetrate deeper and more evenly into the skin tissue. In addition, the heat generated by the RF energy stimulates the production of collagen and elastin, which helps improve the skin's texture and tone.

DMK
Danné Montague-King®

SKIN CARE
TREATMENTS

DMK Enzyme Therapy 1 For Problematic Skin

90 mins

Ideal for, tired irritated, acne prone, rosacea, scared, pigmented or inflamed skin.

Enzyme treatments improve the skin's ability to function by dissolving dead cells and impurities trapped within the skin. This in turn restores vital cellular nutrition and oxygenation required for cellular regeneration.

Enzyme Therapy stimulates collagen production, restoring structural integrity back to the skin whilst being suitable for a wide range of conditions such as ageing skin, sun damage, acne, rosacea and pigmentation. This is a great entry level treatment for those new to DMK Treatments.

€130

Includes Enzyme 1 treatment with Exoderma or Desquamate peel

Add Quick Peel, Prozyme Occlusion or ProAlpha Occlusion for €20

DMK Enzyme 2+3 Therapy for Ageing Skin

90 mins

Perfect for clients who suffer from ageing, photodamaged skin, lacklustre skin, sagging jowels, lines and wrinkles.

DMK Muscle Banding is a technique used to lift, tone, and tighten the skin. It works by causing the muscles to contract, reinvigorating circulation, increasing amino acids, and restoring optimal function. It rebuilds a stronger healthier better functioning skin, stimulating collagen and elastin and strengthens the matrix, giving skin back its bounce. Even before signs of ageing become apparent, this treatment works to prevent the decline in the functioning of your skin that causes ageing.

Whether you want to maintain or regain a tight youthful appearance, DMK Muscle Banding is like the army that comes in and stops the decline that causes skin to age.

€160

Includes Red Vein Treatment and Muscle Banding

Add Quick Peel, Prozyme Occlusion or ProAlpha Occlusion for €20

DMK Quick Peel

45 mins

Quick Peel is a versatile formulation that is an ideal treatment for everything from sensitive, reactive skin, inflamed and reddened skin, facial vascular concerns, fragile capillaries, sluggish dull skin, acne, and early-stage rosacea.

The treatment performs a controlled micro-removal of the epidermis - leaving the skin looking instantly radiant and luminous.

It is also a great option to minimise fine-lines and wrinkles, minimise open pores and brighten the skin. This process also encourages new cells to grow stronger and healthier. But the best part is that this peel addresses the symptom of the condition without any visible downtime or post treatment irritations.

€75

DMK Prozyme

45 mins

Prozyme is often referred to as a dead cell "meat eater" because it was designed to remove dead skin cells and other debris from the surface of congested skin. It can be used as an alternative full-face skin revision treatment.

Prozyme is really a disincrusting formula designed to digest dead skin cells and to assist in decongesting dead cells that may be impacted in the pores around the hair follicles.

Ideal for dead cell build-up, pigmentation disorders, effective for darker skin tones such as Asian or Indian skin, hyperpigmentation, blackheads and dislodges clogged pores, sun damaged, discoloured skins.

It contains a blend of powerful, natural ingredients including the active enzymes found in some fruits. This makes PROZYME a natural, non-chemical exfoliator that will leave your skin feeling smooth and soft.

€75

DMK Alkaline Wash for Depilation

60 mins

The DMK Alkaline Wash system is a remarkable treatment for all areas of the face and body, designed to reduce fine, downy hair.

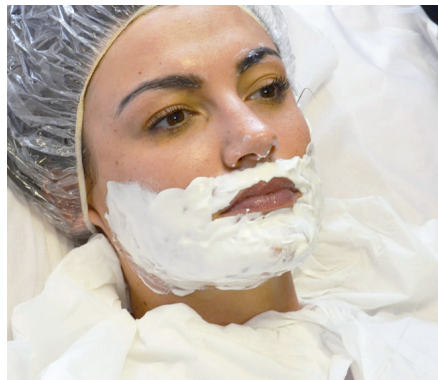

This type of hair is very difficult to remove with other methods as the growth is usually dense and would take a long time to treat with electrolysis. It is also not suitable to be treated with IPL or Laser because it has no colour for the laser to target.

After your first treatment, the hair will grow back at its normal rate, but as treatments progress the hair regrowth rate will become slower and the hair will weaken; usually resulting in a permanent loss over a period of time.

The treatment is completely pain-free, however in some cases the area can appear red and warm which is normal and will subside after a short period of time.

DMK ALKALINE WASH also works for:

- Deep wrinkles and lines
- Acne
- Milia
- Rosacea
- Pigmentation spots
- Scars
- Stretch marks
- Sun damage
- Hardened skin and callouses on the feet
- Removing any rough, calloused areas such as the knees, elbows, feet etc
- Hair removal on any part of the body & excess facial hair
- Remove embedded and congested hair follicles such as in folliculitis cases & razor bumps

€90

Alkaline Wash Resurfacing Treatment

90 mins

Designed to swell, soften and dissolve redundant tissue, pH Revision Treatment works well to revise pigmentation, ageing, acne, and scarring.

An exclusive and unique treatment that turns the skin's natural slightly acidic pH to an alkaline state in order to increase the skin's response to treatments and products. It works to swell, soften and dissolve unwanted dead skin cells that cause hyperpigmentation, signs of ageing, scars, razor bumps, acne as well as reduce unwanted hair. It also works to remove milia and revise rosacea and can be used on areas of the body. After an alkaline treatment, you can expect your skin to feel incredibly soft, silky and appear brighter with a more even skin tone.

This treatment is finished off with a DMK Enzyme 1 treatment to speed up the function of the skin's barrier and reduce the post-treatment inflammation.

Ideal for:

- Deep wrinkles and lines, acne, milia, rosacea, pigmentation spots, scars, stretch marks, sun damage;
- Removing any rough, calloused areas such as the knees, elbows, feet; folliculitis cases and razor bumps.

€150 per treatment
or a course of three treatments for €450

DMK Teen Refresh

The ideal treatment for teen skin.

An introduction to Skin Treatments and supportive home care advice for our teenage clients. We will assess the skin to determine hydration, oil flow and presence of bacterial break out.

Teenagers are taught how to correctly cleanse, exfoliate and hydrate their skin.

We will assess the skin and recommend simple changes at home, and treatments in clinic that can prevent the further formation of blackheads and pimples.

An extraction treatment best suited to a heavily congested or acne prone skin. A DMK mask is applied for a thorough exfoliation and to loosen impurities for easy extraction.

€75 per session
or four sessions for €240

DMK Lunchtime Peel

45 mins

Instantly radiant, post peel skin, Lunchtime Peel also contributes to the reduction of fine lines, wrinkles and visible pores.

For time-poor people who still want the radiant and luminous skin that comes from a peel, the Lunchtime Peel is ideal. It performs a controlled micro-peel to reveal younger-looking skin whilst helping to reduce the appearance of fine-lines, wrinkles and visible pores.

€90

DMK Cyro Pro-X

45 mins

The Cryo Pro-X is a quick but effective exfoliation treatment that utilises thermal homeostasis to exfoliate.

Dead cells freeze, fracture, and fall away when exposed to polylactic and glycolic acid in cold temperatures. This process removes the top layer of dead skin cells while protecting the healthy living cells beneath.

Ideal for skin experiencing dermatitis, acne, rosacea, and other inflamed conditions. Also ideal for hyperpigmentation and advanced sun damage.

€75

DMK MediPedi

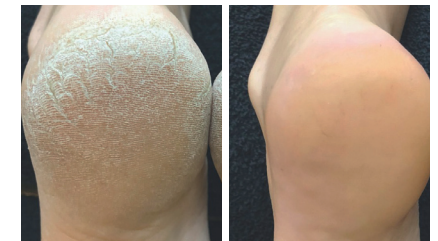

45 mins

Soften callouses, corns, cracked heels or rough dry skin build-up on feet with DMK's MEDIPEDI™ Treatment.

MEDIPEDI™ can achieve excellent results in just one treatment leaving the roughest, most cracked and calloused feet smooth and soft. For severe cases, multiple treatments may be required.

DMK's MEDIPEDI™ Advanced Foot Treatment:

- Removes callouses and hardened, yellow skin
- Removes painful corns
- Revises cracked heels leaving your skin soft and smooth
- Removes rough, dry skin build-up
- Revises dark, pigmented areas
- Assists in removing any fungal or bacterial infections

€75

Typically only one session needed

MICRODERMABRASION

Microdermabrasion treatments use a minimally abrasive instrument to gently sand your skin, removing the thicker, uneven outer layer.

Microdermabrasion helps to thicken your collagen, which results in a younger looking complexion. Collagen is a protein in your skin which is abundant when you're a child and makes skin appear taut and smooth. Collagen production declines as we age, resulting in looser, uneven skin.

Microdermabrasion can be used to:

- Improve age spots and blackheads
- Improve hyperpigmentation (patches of darkened skin)
- Exfoliate your skin, resulting in a refreshed appearance
- Lessen the appearance of stretch marks
- Reduce fine lines and wrinkles
- Reduce or eliminate enlarged pores
- Treat acne and the scars left by acne

€80 (60 mins)

or €100 with LED included (75 mins)

LED LIGHT THERAPY

LED light therapy is mainly focused on skincare, promoting anti-aging effects and reducing inflammation.

The purported benefits include an increase in the amount of collagen in the skin, which can reduce the appearance of wrinkles and other stigmata of aging. Other uses of LED light therapy include the treatment of acne, dermatitis, eczema, psoriasis, rosacea, scarring and sun damage.

- No irritation or downtime.
- Great treatment for all skin types and ages.
- Helps to firm sagging skin.
- Healthy skin glow.
- Fights acne and prone skin.
- Decreases pore sizes.
- Evens skin tone.
- Supports skin immune response.
- Improvement of irritated skin condition such as rosacea
- Decreases fine lines and wrinkles.
- Brightens skin.

€20 add on to any treatment (15 mins)

or €70 with deep cleanse and hydrating mask (45 mins)

MESOTHERAPY

60 mins

Mesotherapy vastly improves the appearance of lacklustre skin and can also aid in the improvement of skin concerns. The treatment works by directly introducing potent mixtures of vitamins, minerals and active ingredients to deeper layers of the skin. As a result the skin appears plumper and achieves a radiant glow.

The treatment uses very fine needles to administer a combination of vitamins, hyaluronic acid, plant extracts and enzymes into the support layer of the skin, also known as the dermis. This is something that cannot be achieved by using skincare only.

€120 or three treatments for €300

DERMAPEN MICRONEEDLING with Collagen Lip Plump

45 mins

Using the most advanced microneedling pen, mesotherapy cocktails and masks, this device slides along the skin, penetrating the upper layers of the skin in order to create numerous tiny needle wounds.

This procedure causes the body to respond by forming new collagen and elastin fibers. In response to this stimulus, the skin plumps and thickens, which results in a reduction of the appearance of scars, fine lines and wrinkles.

€120 or three treatments for €300

ICE GLOBE FACIAL

60 mins

This amazing facial includes double-cleanse, dermaplane, steam and extractions, followed by a mask and

cooling ice globes which stimulate collagen production and tightening of the skin, perfect for cleansing.

€100

EXPRESS DERMAPLANE

40 mins

Dermaplane is an amazing facial that removes all your dead skin and vellus hair (soft white hair that does NOT come back thicker or darker) by scraping the skin with a blade. It is a

perfect priming for skincare products to penetrate your skin, including our Epionce mask that we will set on your skin for around ten minutes after the treatment.

€60

DERMAPLANE with painless enzyme peel

45 mins

This pain-free instant peeling gel peels of dead skin cells at once. It softly removes the unnecessary dead cells, which makes the skin dry and

dull, so the skin gets clear and clean with a brighter colour. it soothes the skin and gives the skin a soft texture.

€70

BOTOX ARGIRELINE CONTOUR FACIAL

1h 15 mins

Starting with a double cleanse, followed by a Dermaplane (or skin peel) and moving onto microdermabrasion to remove all impurities from the skin, we will then place the "Argireline contouring mask" onto your skin.

This unbelievable mask affects the nerveto-muscle communication so that the muscle contractions stimulate collagen production and firms your skin. We then add the "Diamond hydro Jelly mask" which detoxifies and brightens full skin.

€120 or three treatments for €300

BACNE TREATMENT

45 mins

Using the most amazing products we will fully cleanse your back and then use steam to encourage any impurities to rise to the surface,

making it easier to extract spots, blackheads, etc. The treatment is followed by a back mask and a back massage.

€60

ILLUMI FACIAL

45 mins

Illumi Facial is the next generation of the highly successful "Photofacial" treatment, using a new and unique combination of specialist Lyton skincare combined with our powerful, medical-grade skin rejuvenation IPL laser.

This amazing four-step facial includes the following:

1. Double cleanse

Using high-quality Illumi products.

2. Tri-Fruit Acid Peel

A unique Lynton Fruit Peel will be applied to your skin, for anywhere between three to ten minutes. This peel resurfaces skin texture and decongests pores, priming the skin for the next stage of the facial treatment.

3. Lynton IPL

After the fruit peel, your skin will be at its optimum condition for the application of the award-winning

Lyton Intense Pulsed Light (IPL). This works by both stimulating collagen and targeting any discolouration on your skin, including freckles, pigmentation, vascular breakouts and general redness. In most cases the results are instantly providing you with dramatically firmer skin.

4. Hydrate & Protect

To help maximise the results of your Illumi facial, a trio of specialist serums will be applied to your skin post-IPL, helping to generate and protect your skin.

€200

or three treatments for €500

or seven treatments for €1000

IPL LASER SKIN TREATMENTS

Intense Pulsed Light (IPL) is a technology used by cosmetic and medical practitioners to perform various skin treatments for aesthetic and therapeutic purposes, including photorejuvenation, hair removal as well as alleviate dermatologic diseases such as acne.

Please note, custom packages and discounts are available for multiple areas. Contact us for more information.

LIQUID GOLD FACIAL

(Commonly known as the vampire facial)

60 mins

PRP, which stands for Platelet-Rich Plasma, is a procedure where the use of a small amount of one's own blood is extracted, platelets are separated in a centrifuge and then re-injected into the injured areas releasing growth factors that promote natural tissue healing.

Platelets are a natural source of a number of growth factors in their natural and biologically determined ratios. Plasma is typically a very thin yellowish fluid (hence the gold in the liquid gold) The platelet-rich plasma is then used in a number of ways to enhance cosmetic procedures.

We use the PRP in a number of our cosmetic procedures including microneedling and injectables and in combination with other treatments.

In pretty much all cosmetic procedures, our goal is to stimulate growth factors to bring out our younger healthier skin.

PRP not only boosts the growth factor stimulation, but it also does an amazing job at decreasing healing time and giving an immediate glow to the skin.

PRP creates impressive results both as an isolated procedure or when incorporated into a treatment plan. PRP typically sees improvements immediately will continuing to work for up to 3 months. One of the best parts is your risks with PRP are really low, since it is your own plasma that we are re-injecting.

€250 - including Microneedling or three treatments for €650

PRF SKIN REJUVENATION

60 mins

PRF, which stands for Platelet-Rich Fibrin, is a revolutionary, new, all-natural treatment and a second generation of PRP therapy. It can treat common areas that show the first signs of ageing and hair loss.

As we age we lose volume in our face, under our eyes, in our cheeks and around our mouths. This is due to loss of collagen and elastin. To stimulate collagen production, tighten loose skin and add volume back to the face there are non-surgical options, including dermal fillers, thread lifts, lasers, platelet-rich plasma (PRP) and platelet-rich fibrin (PRF).

PRF has a higher concentration of platelets, fibrin, and white blood cells, which are spun at a lower speed so that the layers of the blood do not separate out as distinctly. This allows some of the white blood cells and stem cells to remain within the platelet layer that is collected for treatment. Thus, there are more healing factors within PRF than is typically seen in PRP. In addition, the lower spin speed causes less trauma to the individual cells of the blood, allowing more stem cells to remain in the final PRF product.

PRF promotes better healing from within your own body, because it is made from your own blood.

Benefits of PRF treatment:

- Reduction of facial wrinkles and ageing skin.
- Improves dry or oily facial skin.
- Stimulates hair growth (scalp and eyebrows).
- Reduces skin scars caused by acne.

The first changes after PRF treatment will be seen within a couple of weeks. The maximum effect is reached in about six to eight weeks.

€300 - including Microneedling

or three treatments for €800 / three monthly payments of €266

PRF HAIR RESTORATION THERAPY

60 mins

REGAIN HAIR & CONFIDENCE.

PRF Hair Restoration Therapy is a three-step medical treatment that involves injecting concentrated plasma into the scalp.

PRF, which stands for Platelet-Rich Fibrin, uses your body's own stem cells to stimulate collagen production, tissue regeneration, and hair re-growth.

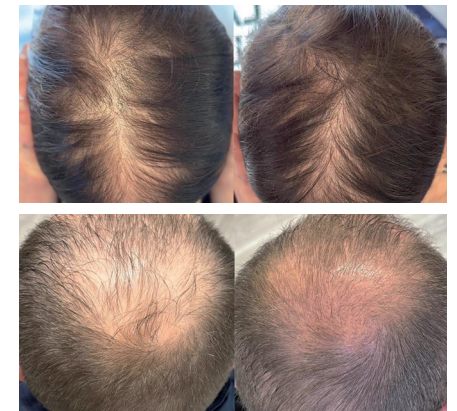

During a PRF treatment, the patient's blood is drawn and spun in a centrifuge. This process separates the platelet-rich fibrin from the rest of the blood using the body's own stem cells to generate new hair growth and thicken hair. PRF is injected into the scalp where hair loss is being experienced.

Since PRF growth factors come from your own blood, the body more easily accepts the treatment and increases natural tissue regeneration. The tissue growth stimulates hair follicles, making them larger and healthier so they can produce thicker hair.

Both men and women benefit from PRF hair restoration's many benefits. It can be beneficial in the treatment of:

- Thinning hair
- A receding hairline
- Baldness (including small bald spots)

Patients generally receive four treatments to begin seeing optimum results and are advised to have a maintenance treatment every six to twelve months after the initial series of treatments. When this treatment plan is followed, the success rate is close to 80%. PRF is safe, discreet, and professional.

€350 per treatment

A course of four treatments is recommended €1190 (worth over €1,400)
(or €350 deposit and four remaining monthly payments of €210)

SKIN CARE PACKAGES

All skincare packages can be spread out over 6 months with 0% finance provided by KMK.

Custom packages are also available. Please contact us today for more information.

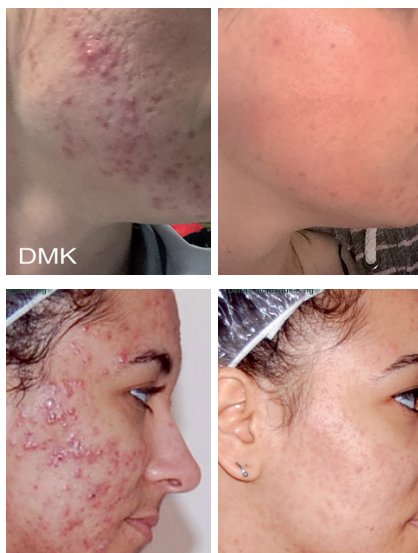

Acne Control Package

Get your acne under control and start to improve your scarring in less than three months.

Our Acne Control Package includes a course of seven treatments and an at-home care package which is designed to treat both pustular and cystic acne as well as post-inflammatory pigmentation and pitted acne scarring.

The package includes:

- 3 x DMK Enzyme facials with Quick Peel or Alkaline Wash (worth €450)
- 2 x Lunchtime Peels (worth €150)
- 2 x Quick Peel or Prozyme (worth €150)
- Customised skincare products (up to €250)

This package is designed not only to clear up acne but also to assist the healing process to even out post-inflammatory pigmentation caused by acne scarring, and to even out the skin's surface from atrophic pitted scars.

Only €850 (worth over €1000)

(or €250 deposit and five remaining monthly payments of €120)

Bride-to-Be Package

This 7-month treatment plan is designed to get you ready for your big day.

Each treatment will be customised to your individual concerns with your big day in mind. All of the treatments are designed to improve skin tone, brighten skin, plump fine lines and wrinkles, improve firmness and improve hydration and reduce any skin impurities.

The package includes:

- 2 x DMK Enzyme 1 treatments with prozymes (worth €360)
- 2 x Mesotherapy Sessions (worth €240)
- 3 x Microneedling Sessions (worth €360)
- Customised skincare package up to €250

Only €945 (worth over €1,110)

(or €250 deposit and five remaining monthly payments of €139)

Age Reversal Package

Turn back the clock with the ultimate age reversal package. This integrated skincare programme targets the full face, including sagging jowls, smoker's lines, crow's feet, drooping eyes, turkey neck, double chin and skin laxity.

Using High Intensity Focused Ultrasound (HIFU), a minimally invasive cosmetic treatment for skin tightening and painless replacement for face lifts. It uses ultrasound energy to encourage the production of collagen, which results in firmer skin as well as a smoother complexion.

In addition to this we will use DMK Enzyme 2 and 3 facials for Muscle Banding, a technique used to lift, tone, and tighten the skin. It works by causing the muscles to contract, reinvigorating circulation, increasing amino acids, and restoring optimal skin and muscle function.

The package includes:

- 1 x full face, neck and jaw lift HIFU (worth €650)
- 3 x DMK enzyme 2 and 3 muscle banding facials (worth €240)

Only €950 (worth €1,190)

(or €400 deposit and five remaining monthly payments of €110)

Pigmentation Package

Start your journey to even skin tone. Whether you suffer from sun damage, age spots, melasma, post inflammatory pigmentation, hyper pigmentation or hypo pigmentation this is the course of treatments to suit you.

Using a mixture of customised DMK facials and Melanotech products we will transform your skin.

The DMK Melanotech formulation utilises several natural, yet potent inhibitors that prohibit melanin production while removing dark spots, pigmentation, freckles and sun damage. Melanotech restores pigmented skin of every race to a more healthy, light and fresh complexion.

The package includes:

- 3 x Enzyme 1 treatments (worth €450)
These will be customised each time as the treatments progress with Quick Peels, Prozyme, Alkaline Resurfacing and more.
- 2 x Lunchtime Peels (worth €150)
- Customised skin care package up to €250

Only €725 (should be €850)
(or €250 deposit and five remaining monthly payments of €95)

Rosacea/Inflamed Skin Package

We aim to treat rosacea by putting you on the correct treatment plan and at home skin care routine to help reduce your rosacea concerns. By using the right treatments and products we want to reduce inflammation that causes redness and irritation on the skin.

During your consultation at KMK a full history, including potential triggers, will be taken and a full clinical assessment of your skin is performed. A treatment plan based on the treatments above will be given. The treatment options will be based on the severity of the rosacea and you will be reviewed periodically to ensure improvement in your symptoms.

Custom home care prescriptions will be given to each client to ensure they are getting the right products for their skin.

The package includes:

- 4 x Enzyme 1 treatments (worth €520)
These will be customised each time as the treatments progress with Quick Peels, Prozyme, Alkaline Resurfacing and more.
- 2 x Lunchtime Peels (worth €150)
- Customised skin care package up to €250

Only €850 (should be €1060)
(or €250 deposit and five remaining monthly payments of €120)

Ageing Skin Package

Help to fight the seven signs of ageing by using a mixture of treatments and products. Proven to enhance your skin's own natural collagen and elastin production.

This treatment package aims to reduce fine lines and wrinkles, improve dullness, even out skin tone, improve hydration, target sunspots and blotchiness, improve skin texture

and reduce large pores. It treats deep into the skin from the inside and helps treat more superficial issues from the surface.

The package includes:

- 2 x Enzyme 2 & 3 treatments
- 3 x Microneedling Treatments with Mesotherapy Boost
- €250 worth of skin care products

Only €790 (should be €930)
(or €250 deposit and five remaining monthly payments of €108)

Brightening/Hydrating Skin Package

If you suffer from lacklustre, dull, tired or dry skin, this is the right package for you.

Using the right mix of in-clinic treatments and products at home, we will help you to brighten and hydrate the skin, improving its all-over tone and texture. We will remove dead skin and improve skin tone through both hydrating treatments, exfoliant treatments and encouraging cellular renewal. We aim to reduce transepidermal waterloss by improving the skin's barrier function.

We make improvements in the skin by treating the skin from the inside out.

The package includes:

- 3 x Exfoliation treatments
Choose from any of the following 45min treatments - Cyro pro, Prozyme, Quick peel, Pro Alpha 1 (including cleanse, epitoxyl, sebum soak, exfoliant, hydrating masque, quick massage)
- 2 x Microneedling treatments
Using hyaluronic acid vials and hydrating masks.

Only €615 (should be €715)

(or €250 deposit and five remaining monthly payments of €73)

AESTHETICS

All aesthetics are carried out by a fully qualified medical professional.

BOTOX

One area	€200
Two areas	€250
Three areas	€300

SUNEKOS €300 per session

Sunekos is a new injectable treatment containing a patented formula of amino acids and Hyaluronic acid. It regenerates the Extra Cellular Matrix (ECM) by stimulating the fibroblasts in the skin to produce a complete mix of collagen and elastin. This treatment is a great option for clients who wish to maintain a more natural look, or those who do not want or need anti-wrinkle injections or fillers.

A course of three to four treatments is recommended to invoke true long-term skin change, followed by a repeated course of treatments six months later.

PROFHILO €350

Treatment with Profhilo improves skin tone, texture, hydration and overall radiance. It can help to increase firmness and elasticity and promote healthier and softer looking skin. Profhilo is most commonly used for facial areas, but can also be used to rejuvenate the neck, décolleté, arms, knees and hands.

WAXING

Full leg	€25
Half leg	€18
Under arm	€15
Sides of face	€10

Hybrid brows <i>with lash lift</i>	€80
Brow wax, tint & shape	€20
Lash lift	€45

MAKEUP APPLICATION

€30 or €40 with lashes.

SKIN TAG REMOVAL €100

SEMI-PERMANENT EYEBROWS TREATMENTS

Microblading	€350
--------------	------

this includes a 4 week top-up

Microblading is a semi-permanent tattoo technique used to create the illusion of fuller brows. With this method we can create almost any look: from a very natural light finish to a beautifully bold brow.

Clients are encouraged to schedule a follow up appointment four to six weeks after to top up the brows or to make any little tweaks. Results can last anywhere from one to three years, depending on your skin type.

A top-up is recommended 1 year to 18 months after the initial treatment.

FOOT TREATMENTS

DMK MediPedi Chemical Pedicure <i>(removes built-up calluses)</i>	€75
or with gel polish	€100
Gel polish toes	€30
